

Internal Audit Overwatch™

UNCOMMON VISION
KEEN INSIGHT

A FRESH PERSPECTIVE

Today's healthcare industry is in a constant state of motion. Providers face a multitude of complex regulatory and operational challenges. Taking flight requires both a wide perspective of the industry and sharp-eyed vigilance within the organization. A robust internal audit program is no longer an option—it's a necessity.

As one of the largest auditors of multi-hospital health systems in the nation, PYA can help. More than 85% of our audit clients are in healthcare. With clients in all 50 states, we have expertise in every business function across the health system enterprise.

PYA Internal Audit Overwatch takes a long view. We help you identify risks early, mitigate them, and build a culture of effective controls and compliance over time at a predictable cost. No surprises, because we know: internal audit is not a transaction, it's a process, and you can't afford to blink.
